

WHAT'S UP

The 26 kilometre water transmission line that the Town is building will run from Aquatera's Water Treatment Plant in Grande Prairie to the Town of Wembley. The construction is right on schedule; with a planned commission date in Spring 2019.

You're going to get a monthly bill from us starting February 1, 2019. This bill will include your water, wastewater, recycling and garbage collection charges.

We are working on how to set up your Aquatera account. Watch for information soon regarding bill payment options.

WHAT'S NOT CHANGING?

Your Meters

We will continue to use the water meters that were installed in 2016.

Your Rates

The water rates you pay now are the same rates Aquatera charges to all our customers.

Solid Waste Services

Your garbage and recycling will still be provided by the Town.

AQUATERA®

WATER EARTH INNOVATION

Water to Wembley COMING SOON!
